JCI-Accredited Organizations

Hundreds of health care organizations have achieved the Gold Seal of Approval® as JCI-accredited entities. From academic medical centers and hospitals to primary care providers, JCI has partnered with these organizations to support their quest for excellence.

The relationship does not stop with the initial accreditation. JCI continues to work with these high-achieving organizations to help them maintain their accreditation, keep up to date with new standards, and offer guidance on the continuous expectation of performance improvement that JCI accreditation promotes.

Below is the complete list of current JCI-accredited organizations.
